

ROTATING BEACON

APPLICATIONS

A complete line of rotating beacons for airports and heliports of all sizes. Three models now FAA approved.

Teksav Teknoloji A.S. offers one of the largest selections of rotating beacons available. With a product visibility range of 30 to 40 miles and a candlepower range from 190,000 to 400,000, operators are sure to find just the right our beacon to meet their needs. All units offer any combination of clear, green, red and amber color filters to meet current specifications.

RELEATED STANDARTS:

ICAO Annex 14 Vol. I Para. 5.3.3
FAA AC 150/5345-12
STANAG 3316
